Real Science 4 Kids Focus on Middle School Chemistry/Biology Lab Book & Study Folder
(purchased from HomeLife Tutorial for \$40 for both classes all material)

HIGH SCHOOL SCIENCES – HLT has generally veered away from the traditional textbook and classroom approach to learning. We want our classrooms to spark a love of science (learning) with plenty of hands-on, interactive activity and group discussion. Apologia is the go-to for high school science curriculum and while we have found we are not opposed to the curriculum itself as a guide, we will continue to strive to make our classrooms interactive and with class discussion to enhance the learning experience. We believe that this is just as important for high school as for the lower grades. So if you are a fan of Apologia, you will be happy to know that we are going to be using that as the text for the upper level science classes this year and for those of you who are not Apologia fans, please know that we are still focused on making these classes full of information and challenging but in a style in line with our philosophy. Both Juliana and Caroljeanne are great at bringing this style of learning to their classrooms.

Classes will consist of lecture, topic-related activities and significant laboratory experiments. The foundation of the curriculum is the Apologia text, which has a Christian worldview but will be used as a platform. Classroom will be very hands-on and interactive. To complete the course, the instructor has added additional lab work and content. Wherever possible, real world application and experimentation is added to the class.

Links below are to Rainbow Resource which seems to be the least expensive if you are buying new. The textbooks can often be found used on sites like www.homeschoolclassifieds.com

Physical Science

(Tentative) Apologia's *Exploring Physical Science* (2nd Edition) and Student Notebook

<http://www.rainbowresource.com/proddtl.php?id=017416&subject=Science/11&category=Exploring+Creation+with+Physical+Science/2704>

<http://www.rainbowresource.com/proddtl.php?id=054687&subject=Science/11&category=Exploring+Creation+with+Physical+Science/2704>

Biology

Apologia's *Exploring Biology* (2nd Edition) and Student Notebook/Lab Book

<http://www.rainbowresource.com/proddtl.php?id=017418&subject=Science/11&category=Exploring+Creation+with+Biology/2705>

<http://www.rainbowresource.com/proddtl.php?id=058354&subject=Science/11&category=Exploring+Creation+with+Biology/2705>

Chemistry

Apologia's *Exploring Chemistry* (2nd Edition) and Solutions Manual

<http://www.rainbowresource.com/proddtl.php?id=017421&subject=Science/11&category=Exploring+Creation+with+Chemistry/2706>

<http://www.rainbowresource.com/proddtl.php?id=017420&subject=Science/11&category=Exploring+Creation+with+Chemistry/2706>

SOCIAL SCIENCES

4th-6th History

Uncle Sam and You Part 1 and *Part 2* by Notgrass. (Students will NOT need the Student Workbook or Lesson Review books.)

6th-8th History

Uncle Sam and You Part 1 and *Part 2* by Notgrass. (Students will NOT need the Student Workbook or Lesson Review books.)

U.S. History & Government

Exploring America Part 1 and *Part 2* by Notgrass. (Students will NOT need America Voices or the Quiz & Exam books.)
